

# CELEBRATING CENTENARIANS

*Karl D. Hartzell, 102*

*Karl is the very proud father of three boys: Drew and twins Richard and Julian.*

*Pictured below is Karl with his father, Morton Culver Hartzell, on the shores of Lake Michigan in 1909.*

**K**arl Drew Hartzell, Ph.D., has had a long and distinguished career as a successful and respected professor, dean, and administrator in higher education institutions, as well as high level administrative positions at the prestigious Brookhaven National Laboratory and the New York State War Council, among others.

But it is not his impressive career or his many accomplishments - or even his current active lifestyle - that is the focus of our attention this month. Rather, it is his greatest role in life: that of devoted father.

Read more about Karl, his three sons and his extraordinary life: [www.adlercentenarians.org](http://www.adlercentenarians.org).
